STEAMER AND BARGE CRASH.

NEWPORT NEWS, Va., May 11.—The Merchants and Miners' steamer Berkshire, which left Newport News last night for Baltimore, was in collision with a barge in Hampton Roads later, and the steamer was run aground on Hampton Bar to prevent her from sinking. The barge was reported in a bad condition. The Berkshire was leaking badly, but probably can be repaired temporarily by divers. The vessel is in no danger.

41 ARE MISSING AFTER WRECK OF PACIFIC STEAMER

Lifeboat of Roanoke Drifts Ashore With Three Survivors and Five Dead Men.

SAN LUIS OBISPO, Cal., May 11.—Forty-one members of the crew of the steamship Roanoke, operated by the California South Seas Navigation Company, which turned turtle and sank when its cargo shifted during a gale 100 miles south of San Francisco, Tuesday afternoon, are missing today and the Union Oil Company's tanker Lansing is cruising the sea searching for four of the five lifeboats in which the ship's company took refuge when the steamer went down.

The fifth boat drifted ashore at Port San Luis yesterday carrying three furnished sailors and the bodies of five of their mates who had died from exposure.

Capt. Richard Dickson and his wife are believed lost, according to the tale of the disaster told from their hospital cots by the three survivors. When the ship lurched before plunging downward, Mrs. Dickson was thrown into the sea and her husband jumped overboard to rescue her. They were not seen again.

The Roanoke left San Francisco Monday with explosives for South American ports. The arrival of the lifeboat at Port San Luis brought the first news of the tragedy. The three men did not know how far off shore the Roanoke sank or what had become of the other four boats. The Roanoke carried no passengers.

Manuel Lopez, one of the survivors, said the steamer was overloaded and sank during a heavy gale.

SAN FRANCISCO, May 11.—The Roanoke, which was owned here by C. P. Doe, was under charter to the California South Sea Navigation Company.

The Roanoke was an iron steamer of 1,555 net tons register and had been in the coasting trade out of here for several years. The vessel was built in 1882 at Chester, Pa., and was used as an army transport between here and the Philippines during the Spanish-American war.

LABORERS JOIN STRIKE.

Unskilled Workers Want More Money and Shorter Hours.

The unskilled laborers of the bronze and ironworkers' industry which is principally concerned with table signs, bronze doors and grille work joined the general strike workers today. Four thousand men in Manhattan struck for \$2.25 for a nine-hour day instead of \$1.90 for a ten-hour day. Six thousand men of the same occupation in Brooklyn are holding back for the decision of a meeting of 1,500 delegates of the whole trade at No. 175 Broadway to-morrow, called by Max Abramson of the Joint Board of the metal workers.

Abramson estimated that 10,000 skilled and unskilled metal workers, and 35,000 in Brooklyn and Queens, where most of the shops are, will be affected by the expected strike order to-morrow.
